

EVENT MANAGEMENT PLAN

Event Name: Smokin' Hot Stanley

Date of Event: 7th May 2017

Contact Name: Jade Miles

Contact Number: 0418520554

1. EVENT DETAILS

Event place and time

Name of event: Smokin' Hot Stanley

Address of event: 60 Lower Nine Mile Rd, Stanley, VIC

Details of event: Where there's smoke there's flavour. A feast of lip smacking local fare, basted, smoked, slow cooked and flame grilled over four open fires. The abundant feast will conclude with a bonfire-side Wassail, a hearty middle English toast to the incoming season.

Date and time event starts: Sunday 7th May, 11:30am

Date and time event finishes: Sunday 7th May, 4:30pm

Estimated number of people expected to attend: Maximum attendance is 40 people

Contact during event

Event manager/ contact on day of event: Jade Miles

Mobile: 0418520554

Email: jade@blackbarnfarm.com.au

Contact during event is via mobile phone: 0418520554

How will communication be conducted on the day? Verbally

Will there be any expected difficulties in mobile phone reception? No

How will communication be made to attendees especially in the event of an emergency? Verbally

2. TRAFFIC, PARKING AND PEDESTRIAN MANAGEMENT

Road closures

Will there be any road/street closures required for the event? No

Parking

Is there parking available for:

Emergency vehicles: YES

Key stakeholders: YES

Disabled patrons: YES

General parking: YES

Overspill: YES

Buses: YES

Taxis: YES

Parking Signage

There will be clear signage directing patrons to the parking area which is separate from the event area. Refer to Site Plan.

3. ADJOINING PROPERTIES

Have adjoining property occupants been contacted regarding the proposal of this event?

All residents on Lower Nine Mile Road will be notified prior to Sunday 30th April in writing.

If the event is likely to impact in any way on these adjoining properties?

Not in any major way. The event is during daylight hours only with no increased noise levels. There will be some extra traffic on Lower Nine Mile Road however all parking is on our property.

4. FIRE DANGER

Will portable fire protection equipment be strategically located throughout the venue for initial attack of the fire?

Yes, 3 x fire extinguishers in the Packing Shed and a 1000 litre fire unit at the Wassail site. Please refer to the Site Plan for details.

Has a day of total fire ban or fire danger period been considered?

Yes. This event is being held outside of the declared fire danger period and a total fire ban is extremely unlikely. The bonfire at the Wassail ceremony will be registered with VicFire and conform with all requirements of burnoff.

Has your Site Plan been submitted to your local fire service?

No

5. PUBLIC HEALTH

Food Vendors:

Business: Garden State

Contact: Lou Friend

Phone during event: 0418546048

Type of food: Cooked meat, fresh fruit and vegetables, wine and cider.

Council Registration Number and event permit number: details TBA, Garden State have a Statement of Trade and Registration of Food premises.

Alcohol:

Will there be alcohol at the event? Yes

6. TEMPORARY STRUCTURES

Will there be temporary structures at the event? No

7. GAS CYLINDERS

All gas cylinders used at this event will be test date stamped within the last ten years.

8. BLACK BARN FARM EVENT RISK ASSESSMENT

Black Barn Farm takes safety very seriously. Protecting the health and safety of ourselves and those visiting our farm is paramount and bound up in the very ethics of our overall business.

This risk assessments is designed to do two things:

1. Identify potential hazards at our event site and associated potential hazards created by staging the actual event
2. To articulate the appropriate steps/measures to minimise or remove the risk prior to our event taking place

THE NEED FOR A RISK ASSESSMENT

The management of risks associated to participants and the public for our event is one area of our event's planning and preparation that is critical in not only gaining approval for our event to proceed, but also in ensuring our event occurs safely, without incident. The development of risk assessment control measures ensure that all events staged by Black Barn Farm are as safe as possible for staff, contractors, volunteers and the public.

This risk assessment document is heavily based on a template provided by the Indigo Shire Council.

THE RISK ASSESSMENT PROCESS

1. Identify the event / understand the risk assessment process.
2. Identify all activities associated with the event.
3. Identify all the hazards associated with the event
4. Assess the risk associated with each identified hazard. Use the Risk Ranking Table and the Risk Rating Table.
5. Determine the best control. Refer to the Hierarchy of Control for guidance.
6. Assess residual (remaining) risk for each control. If the hazard can be eliminated, the residual risk score is 0 and the residual risk rating is nil.
7. The responsible person for the event must sign off acceptance of the risk assessment. The responsible person is to ensure the corrective actions are actionable. The responsible person must sign off that each corrective action is completed.
8. A copy of the risk assessment must be kept on site at the event.

SMOKIN HOT STANLEY RISK ASSESSMENT PLAN

PART A – HAZARD IDENTIFICATION

Organisation: Black Barn Farm and Garden State Event Organiser: Jade Miles and Lou Friend

Date: 07 May 2017

Event Name (in full): Smokin' Hot Stanley Responsible Person: Charlie Showers

Assessment Team: Charlie Showers, Jade Miles and Lou Friend

Role of Assessment Team: Hazard identification and control implementation throughout the event

	Activity/Process	Identified hazards	Risk level	Risk score
1	Packing Shed Meal	Food poisoning, trip hazard, electrical safety, fire hazard	3B	17
2	Garden Tour	Trip hazard	3D	9
3	Wassail Ceremony	Trip and burn hazard	3C	13
4	General Event	Financial failure – legal claim	3D	9
5	Environment	Waste collection	2D	14

Risk Ranking Table:

Likelihood		Consequence	
1	Almost Certain	A	Catastrophic
2	Likely	B	Major
3	Moderate/Possible	C	Moderate
4	Unlikely	D	Minor
5	Rare	E	Insignificant

Risk Ranking Table:

	A	B	C	D	E
1	25	24	22	19	15
2	23	21	18	14	10
3	20	17	13	9	6
4	16	12	8	5	3
5	11	7	4	2	1
High 25-20		Medium 19-11		Low 10-1	

RISK ASSESSMENT TEMPLATE

PART B – RISK ASSESSMENT

	Corrective actions(s) (refer to hierarchy control)	Residual risk level	Residual risk score	Person responsible Include department	Start date	End date	Control type
	PACKING SHED MEAL						
1	Food Poisoning - Administrative	4C	8	Lou Friend	7/5/2017	7/5/2017	Food operator to ensure best practice. Use safe food handling procedures. Hand washing facilities. Garden State registration and compliance with Indigo Shire health requirements.
2	Trip Hazard – Isolation, elimination	4C	8	Charlie Showers	7/5/2017	7/5/2017	Use designated path ways Use bunting and barriers Public liability insurance to be current. Extension cords to be covered and taped.
4	Electrical Safety – Isolation, administrative	4C	8	Charlie Showers	7/5/2017	7/5/2017	Electrical extinguisher located on site. Cable runs not in exposed areas. All appliances connected to trip protection.
6	Fire cooking and/or structure – administrative, engineering and isolation	4C	8	Charlie Showers	7/5/2017	7/5/2017	3 x fire extinguishers visible and all event staff informed of location and how to use. First aid kit on site. Cooking fires isolated by barriers from guests.
	GARDEN TOUR						
6	Trip Hazard - Engineering, elimination	4C	8	Charlie Showers	7/5/2017	7/5/2017	Pre inspection of garden tour route, identify and then isolate or eliminate any potential trip hazards. Inform guests of uneven ground and potential trip risk.
9	WASSAIL CEREMONY						

10	Trip Hazard – elimination, isolation, engineering	4C	8	Charlie Showers	7/5/2017	7/5/2017	Use designated path ways Use bunting and barriers Public Liability to be current First aid kit located on site.
11	Burn and Fire Hazard – Isolation, PPE	3C	13	Charlie Showers	7/5/2017	7/5/2017	All trip hazards removed, 1000 litre fire unit on site, undertaken during daylight hours, dangers of bonfire communicated to guests, first aid kit on site, bonfire isolated using bunting. Qualified professional fire fighter on site for duration.
13	GENERAL EVENT						
14	Financial Failure - Administrative	4D	5	Charlie Showers	7/5/2017	7/5/2017	Clear goals & objectives Appropriate insurance Risk management plan Appropriate planning and health permits
15	Legal Claim - Administrative	4C	8	Charlie Showers	7/5/2017	7/5/2017	Current public liability insurance Risk management plan
18	ENVIRONMENT						
19	Waste Collection – Administrative, engineering	3D	9	Charlie Showers	7/5/2017	7/5/2017	All food waste will be composted on site post event. Zero waste event. Portable toilet waste to be processed by Pacific Hire post event.

Please attach multiple pages if additional space is required.

Risk Ranking Table:

Likelihood		Consequence	
1	Almost Certain	A	Catastrophic
2	Likely	B	Major
3	Moderate/Possible	C	Moderate
4	Unlikely	D	Minor
5	Rare	E	Insignificant

Risk Ranking Table:

	A	B	C	D	E
1	25	24	22	19	15
2	23	21	18	14	10
3	20	17	13	9	6
4	16	12	8	5	3
5	11	7	4	2	1

High 25-20

Medium 19-11

Low 10-1

CHECKLIST TO BE COMPLETED PRIOR TO EVENT:

Risk Assessment Plan acceptance and sign off by: Charles Showers

Date: 20th April 2017

Are all the corrective actions and actionable? YES

Have the corrective actions been completed?

Has a copy of the Risk Assessment Plan been placed on site?

DEFINITIONS

LIKELIHOOD – Risk Ranking Table	
Almost certain	The incident is expected to occur during the staging of the event – possibly on multiple occasions.
Likely	The incident will most likely occur during the event and will occur during a year.
Possible	The incident may occur once during the event or once in year.
Unlikely	The incident occurs one in five years.
Rare	The incident occurs one in ten years.
CONSEQUENCE– Risk Rating Table	
Catastrophic	Multiple fatalities, ongoing national or international media attention, possible prosecution, significant civil liability action.
Major	Major injuries requiring hospitalisation from event related accident, single fatality, national media, organiser prosecution, major civil liability action.
Moderate	Major injury / multiple minor injuries from one incident, medical treatment by doctor (not event related), reported in Melbourne media, civil liability action.
Minor	Minor injuries requiring first aid, reported in local media, warnings provided, civil liability action unsuccessful.
Insignificant	No injuries, no negative media attention, no legal action.
HIERARCHY OF CONTROL	
Elimination	Removal of the hazard / discontinuing the process.
Substitution	Using a less-hazardous process, chemicals etc.
Engineering	Changing the physical characteristics of the equipment, venue or environment. For example: design modification or installation of guarding.
Isolation	Isolating the plant and using remote controls etc.
Administrative	Procedures or instructions and signage that apply a safe system of work.
Personal Protective Equipment	Equipment that protects the user and public – a short term control measure and the least preferred method of control.
